116m 10.

1. PURPOSE

The credit under the bill discounting scheme is available to all IREDA borrowers (sole / consortium lending) who are selling Energy to state DISCOMS/SECI/NVVN etc. (hereinafter referred to as 'Utilities')

2. MECHANISM

Many of the RE project developers are exporting energy generated from their projects to the state Utilities and Energy bills/ invoices are raised by them against the number of units exported on monthly basis. The Utilities are liable to make payment against the eligible billed amount within stipulated time frame. However, it is observed that there has been inordinate delay in receipt of payment against Energy bills which is also impacting the debt servicing obligation of the borrowers.
