

Sustainability at IREDA

We at IREDA intend to work proactively in partnership with the energy ecosystem stakeholders to develop and deepen green energy markets.

As a key player in the RE sector and as a responsible financial institution, we have adopted a comprehensive Environmental and Social Management System (“ESMS”) to identify and mitigate the impacts, if any, of the projects funded by us on the environment and society at large. As we continue to focus on maintaining transparency and business integrity while driving our environmental, social and governance ambitions, we intend to include more leadership indicators in our ESG disclosures and enhance ESG awareness across our value chain partners.

Sustainability Highlights:

- BRSR 2024-25- (Enclose Copy)
- BRSR 2023-24- (Enclose Copy)
- Total Green Energy Financed - 27 GW
- Total CO2 emissions avoided in 2024-25 – The 50 MW Solar PV Plant helped avoiding approx. 67060 MT of CO2 emissions.
- ESMS Manual- (Enclose Copy)
- Compliant with NGRBC (National Guidelines on Responsible Business Conduct) guidelines.

  *Every project we finance is a step toward a sustainable and carbon-neutral India.*
